Membership Community
Center

Benefit Cricket Core

Easy to manage membership points

P2P membership sharing can save money

Community provides the best way of using membership to users

Company also can market and spread service to target efficiently

Future Of Cricket Core

Now many people have memberships, but there are many people who don't know what kind of membership I have, and there are others who don't know how much of a stopgap measure is.

And most of them do not know how many memberships each brand has.

Therefore, CRICKETCOIN will establish an open community that can give individual members a chance to exchange points between memberships and create and use web and app applications that can collect and use each brand point in one
